

GUARANTEE

Your wristbands will ship on time or they're FREE!

Why do this?

When it comes to internet business anyone can tell you what they will do, but without a written guarantee of service, you might as well do business on a street corner. When it comes to custom silicone wristbands, nobody does it better than we do and we want you to feel truly confident and secure that you are getting exactly what you ask for.

Our guarantee and promise to you is simple.

When you purchase your custom silicone wristbands from WristbandConnection.com you get a production time you can count on. If we say it will ship tomorrow, it will ship tomorrow. If you need them in your hands by next week, we will get them to you next week or tell you that we cannot if it is not possible. If, because of reasons out of our control, we cannot produce your order on time, we will notify you immediately and refund your money.

If you do not receive notice within 24 hours of placing your order, our "guaranteed to ship on time or your wristbands are free" policy officially becomes active. If we do not manufacture and ship your wristbands in the production time our web site states or we have e-mailed to you, **we will refund your money and let you keep the wristbands!**

We know how important wristbands are to our customers. No other "wristband company" offers this guarantee in writing. If you want your custom silicone wristbands on time, insist on a written guarantee so that you are protected and satisfied. With us, you do not even have to ask.

We appreciate your business and we will serve you well. Thank you.
